

Dear GMC Members,

The Greater Milwaukee Committee supports Governor Tony Evers' July 30th , 2020, statewide mandate. We believe that wearing masks coupled with social distancing are the two most effective actions to limit the spread of Covid-19. Complying with the mandate will help enable businesses to safely operate so our state's economy can remain open and recover. Furthermore, this fall when our schools re-open, it is in the interests of our teachers, administrators, and the students and their families to take actions now to flatten the curve and limit the spread of Covid-19.

Therefore, we ask our members for your support of the mandate and your encouragement of your employees to follow it also when not at work. We believe this mandate is required for public health reasons and should not be turned into a political issue.

Sincerely,

David Lubar & Julia Taylor
